

School of Pedagogical Sciences, Mahatma Gandhi University, Kerala, India
Organizes **ONE-WEEK NATIONAL WEBINAR on**
Education During COVID-19 and Beyond
Monday to Friday, 28th September to 2nd October 2020

CONCEPT NOTE: The COVID-19 pandemic has created the largest disruption of education systems in history, affecting nearly 1.6 billion learners in more than 190 countries and all continents. Closures of schools and other learning spaces have impacted 94 % of the world's student population, up to 99 % in low and lower-middle income countries. As the impact of COVID-19 spreads across the globe, it has left schools scrambling to quickly adapt to a new way of doing things: online only! If the importance of virtual classrooms wasn't apparent before, it is now. In such unprecedented and uncertain times, it is normal for people to experience higher levels of stress and anxiety, teachers included. Teachers need socio-emotional support to face the extra pressure being put on them to deliver learning in a time of crisis as well as support their students' emotional needs. It is in this spirit that School of Pedagogical Sciences, Mahatma Gandhi University, Kerala, India has developed this webinar *on Education During COVID-19 and Beyond*.

SUB-THEMES: Paradigm Shift in Teaching-Learning Ahead; Education during Emergencies; Mental health of teachers and Covid-19; Role of Medical Professional in Managing the Pandemic; Teacher Professional Development during the Emergencies; Holistic Health Perspective during Emergencies.

Registration Link: <https://forms.gle/J2QaqRc8UrVVmkpc9>
