

Starting of project work and Access to course content

To
College Level Coordinators of MOOC Course on Organic Farming

Sir/Madam,

Hope you have received the video content of the training program conducted by the university in connection with the MOOC on organic farming. The guideline for doing the project is made already available on the university website. Please share that with mentors and students for doing the project. Now the project activities can be started. A formal inauguration of the commencement of project activity is to be conducted and the photograph of the same with the details of the college has to be sent to info.mooc@mgu.ac.in

The username and password for the teachers and students in the case of colleges which have completed the registration process (Including the payment of fee to the university account) will be sent to the email id of the college coordinators.

The coordinators and mentors have to login to the MOOC website when an instruction is sent by the university. The details such as Name, Email Id, Mobile Number etc will have to be entered on the MOOC website along with the username and password assigned. Subsequently mentors can instruct the students to enter their details on MOOC website. Once this process is completed, the content of the MOOC course will be accessible to teachers and students.

Thanking You
Yours Faithfully

Prof. (Dr.) Santhosh P Thampi
MOOC Course Coordinator
Mahatma Gandhi University, Kottayam
