

Mahatma Gandhi University Kottayam, Kerala

INTRODUCTION

India, at present is recognized as one of the voungest nations in the world with over 50 % of the population under the age of 30 years. It is estimated that by about 2025, India will have 25% of the world's total workforce. The majority of the contemporary institutions of higher learning remain almost disconnected with the requirements of the workplace, thus creating a skill-gap - the gap between the skills imparted through formal education and what is actually needed in the work place. Being aware of this reality, Mahatma Gandhi University realizes the importance of forming a Placement Cell at the University level which would work towards reducing this skill gap in our students thus enabling them for immediate placements after their respective courses.

OBJECTIVES OF THE PLACEMENT CELL

The Training and Placement Cell of an institute/university work with the following objectives.

- Guiding students for placement in credible organization.
- Conducting seminars, group discussions, and mock interviews as a part of career guidance and personality development.
- Coordinating the efforts of the students of the various colleges and departments in arranging domain specific training for them.
- > Acting as an information center for students in job opportunities and competititve examinations.

The career development process includes self-awareness, career exploration and job placement. In order to realize this process, the Training and Placement Office would perform the following activities.

Campus Placement

Campus Recruitment Programme (CRP) will be promoted by the cell for appropriate placement in Government Departments, Private/Public Sector Undertakings, Industries and Research/ Academic Institutes. The detailed database of Organisations (Postal and electronic correspondence address of Head Office of Industry, product and business profile, branches/ factory locations, mobile and email of contact person, nature of job and likely remuneration package etc.) interested in recruitment will be generated through use of Yellow Pages, Association Members Directories (e.g. Maratha Chamber of Commerce, FCCI,), search engines for locating websites of Companies, Regional Industrial Directories etc. For placement, a large number of prospective employers will be contacted at the beginning of

academic year; preferably during the month of April-July. reputed/ prestigious The national and multinational companies would be promoted to visit MG University for campus recruitment annually. In order to achieve excellent placement record, the T & P Cell will give great deal of emphasis on close and continuous interaction with executives of various industrial/ commercial organizations, both at the national and international levels, for strengthening the Industry - Institute interaction. The Training and Placement Cell ensures and takes care to provide the best arrangements and hospitality for the visiting companies' officials. It provides all audiovisual facilities for PowerPoint Presentations, written test, group discussion and interviews.

Staff will be available to respond to students' questions and concerns of all kinds. This may include advice on placement procedures, assistance for preparation of applications and resumes, and practice for interviews. The aim is to ensure that students have the information and skills necessary for an effective job search and the students must secure job offers before they complete their program of studies and leave their Alma Mater.

Overseas Placement

Indian Industries have expanded their business in Asian, African and European Countries through acquisitions and tie-ups. This has opened up new avenues in the form of overseas placement. Efforts will be undertaken to promote Overseas Placement.

Organization of workshops/ seminars for training on Emotional Intelligence

The Central T & P Cell would play a very important and key role in counseling and guiding the students of the university for their successful Career Placement, which is a crucial interface between the stages of completion of academic program of the students and their entry into avenues of suitable employment. Soft skills are a quite essential qualification for professionals aspiring to move up the value chain especially attitude, communication and presentation. The T & P cell would conduct Technical, Aptitude and GK tests periodically for enhancing analytical skills and general awareness of students. Group Discussions would be organized to promote skills of interaction in group and leadership styles. The company executives/ employers will be invited to share their valued expertise on various topics, workplace situations with our students, current trends and future scenario. Eminent management personalities would be invited to conduct workshops on Personality Development, Interpersonal and Communication Skills, Time management, Memory Management etc. Participation of students in activities that provide them all round personal and professional growth will be promoted. Thus this Cell will coordinate various activities/ organize programs such as Career Goal Setting/ Planning/ Mapping, Mock Interviews/ Interviewing Techniques, Group Discussions, Case Studies, Job application preparation, Resume Writing and Referral, Professional Portfolio Development, Dressing Sense, Business Etiquette, Technology Management, Personal Effectiveness for Girl Students, Special training for Socially Backward and Tribal Students etc.

TASKS TO BE PERFORMED BY THE PLACEMENT CELL

- 1. Training to students (EMPLOYMENT READINESS FOUNDATION PROGRAMME)
- 2. Organising Recruitment drives in the campus.

EMPLOYMENT READINESS FOUNDATION PROGRAMME

As part of the activities to be performed by the placement Cell of M G University, the most important activity envisaged by the cell is to conduct **" EMPLOYMENT READINESS FOUNDATION PROGRAMME**" for our students.

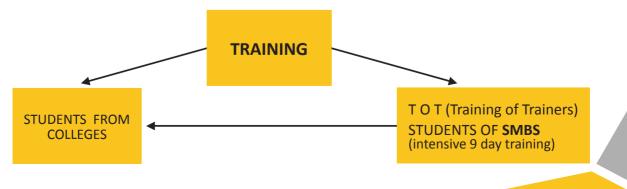

The programme seeks to assess employment – readiness of prospective candidates and prepare them for the job selection process. After attending the programme, the participants should be able to present themselves as smart professionals. The programme will enable the participants to understand the selection/placement process from the employers perspective, evaluate themselves objectively and communicate their ideas and present their skills persuasively.

HOW THIS PROGRAMME WILL BE ORGANISED?

Mahatma Gandhi University with over 300 affiliated colleges has over 30000 students enrolled for various undergraduate programmes. Out of this roughly around 10000 students are in their final year of graduation. To start with this training programme would be targeted at these 10000 students who will be passing out within a year. Since training of this large number of students itself is a herculean task , because of the sheer size of the students to be trained and the scarcity of trainers for such training, a definite number is to be worked out for effectively implementing this programme.

With respect to the students to be trained, a requisite number would be selected based on the domain skills required for each type of job. For this the concerned university departments and colleges would be entrusted to select the students to undergo this training.

With regard to having sufficient number of trainers, the initial task of the Placement Cell would be to train high potential students with right aptitude to become trainers. For this students of School of Management and Business Studies would be selected and trained intensively on various domain skills and soft skills and their assistance would be taken for training other students.

Duration of the training

22.5 hours (excluding breaks) of in house intensive training on both domain skills and soft skills. This will be scheduled on weekends without affecting their routine college studies. For TOT (Training of trainers it would be a more intensive training for 70 hours (excluding breaks) spread over three weekends.

VENUE

Since it is an in house training programme an ideal venue is a determining factor to ensure the effectiveness of the training program. To start with we propose the infrastructure facilities of SMBS to be utilized for training sessions and the university guest house to be used for accommodation of the students. It is important for the students to stay together in order to effectively complete the exercises scheduled for the next day of the training.

Important domain skills identified for training

This was done considering the employment opportunities available in the market at present. This can be changed or improved depending upon the changes in the market. Following are the important domains identified for training.

- 1. Skills required in Banking Industry for the position of Probationary officers
- 2. Skills required in IT enabled services industry
- 3. Skills required in Marketing companies

Besides the training on various domains, the other areas of training are soft skill training, presentation skills. Personality development training, communication skills etc.

Training Outcome

The programme will enable the participants to;

- 1. Understand the selection/ placement process from the employers perspective.
- 2. Evaluate themselves objectively
- 3. Be aware of their individual strengths and improvement areas.
- 4. Communicate their ideas and present their skills persuasively.

Schedule of the programme

A detail schedule of the training with the modules to be covered is appended herewith. As an example the domain area specified in the schedule is for Banking Industry.

WHO WILL BE THE TRAINERS?

Trainers will be drawn from Industry who are the best in their profession. To start with discussions were held with various accredited training agencies who will be invited to the university to have discussions with the authorities of the university. Following this a panel of trainers will be selected.

DETAIL SCHEDULE OF PROGRAMMES
