Spot admission for M. Tech in advanced polymeric materials at nanocenter.

International and Inter University Centre for Nanoscience and Nanotechnology, Mahatma Gandhi University has started a new course in **Master of Technology (M. Tech) in Advanced Polymeric Materials**, owing to the higher demand for the polymer based materials for the advanced applications in the present era.

This course we offer consists of a two-year duration with four semesters. The first and second semesters included regular classes and laboratory works, including mini-projects. The third and fourth semesters (final year) included a full research project with a scholarship.

Here are some of the critical benefits for the students who are interested in joining this course;

1. One year international project with fellowship (outside India such as USA, Europe, Australia, Japan, Malaysia, China, etc.)
2. Research project/industrial project based on the interest of students.
3. Possibility to do Ph. D based on the research project.
4. Recruitment on reputed industries after the course.
5. Publication of the results acquired from the research projects in high-impact factor journals.

The interested students, can send an application, including CV and certificates, through email before the deadline for receiving applications. The classes will begin soon after the recruitment.

Requirements for the applicants. BE/B.Tech in Chemical/Polymer Engineering, Mechanical Engineering, Civil Engineering, Nano Technology, Electrical Engineering, and MSc in Physics, Chemistry, Polymer science, Nano Science, and Nanotechnology.

Please contact Dr. Hiran Mayookh Lal for more details on the phone 8281082083.

The applications have to send via email to materials@mgu.ac.in

The candidates who are selected are requested to join as soon as possible.

Deadline for receiving the application: **20/07/2022**
