Fourth Semester

Branch II—CRIMINAL LAW

LW 020 401—MEDICAL JURISPRUDENCE AND FORENSIC SCIENCE

(2023 Admissions—Regular/2022, 2021 Admissions—Supplementary)

Time : Three Hours

Maximum Marks : 70

*Answer any **five** questions.*

All questions carry equal marks.

1. Discuss historical developments, the integration of scientific methods, and the growing importance of advanced technology in medico-legal investigations.
2. Explain the major areas of application of medical jurisprudence, with special emphasis on medico-legal applications in criminal cases.
3. Discuss the dynamics of medical evidence in criminal investigations and judicial proceedings.
4. Explain the miscellaneous applications of medical jurisprudence in modern legal systems.
5. Examine the prominent theories in forensic science and their relevance to crime detection and evidence interpretation.
6. Examine the role of biomedical and biotechnological forensic tests in criminal investigations.
7. Discuss the principles and applications of fingerprint and footprint examination in forensic investigations.
8. Discuss judicial discretion in the admissibility and appreciation of expert evidence, including the standard of proof for different streams of scientific evidence.

(5 × 14 = 70)
